

## International Numbering

Some countries have more strict regulations than others for accessing numbers. Please see below for specific requirements.

*Note that the numbers for the countries listed below are blocked upon purchase and require the submission of the additional information in order to unblock.*

### **Croatia, Czech Republic, France, Hungary, Ireland, Netherlands, Norway**

For geographical numbers, the location of the end user (place of residence / business) corresponding to the relevant geographic zone is required.

### **Germany, Norway**

For national numbers, the location of the end user (place of residence / business) corresponding to the relevant geographic zone is required.

### **Denmark**

The customer shall provide the name, address and passport number or business registration number of the end user from anywhere in the world.

### **Georgia, Germany, South Korea**

For geographic numbers the location of the end user is required in the city corresponding to the geographical zone of the requested number. This must be substantiated by a proof of address.

### **Singapore**

The user shall provide name and address, passport number or business registration. The customer will transmit to VTSL the documents justifying that the information is valid and correct before activation and keep this information updated during use.

*Valid proofs include monthly bank statements, monthly utility bills (all issued in the previous 6 months) and government documents (issued in the previous year), government-issued IDs, passports, drivers' licences and business licenses.*
